The ASEAN Community Progress Monitoring System (ACPMS) is a project under the ASEAN Community initiative. It aims to track the socio-economic progress and trends in ASEAN through the use of outcomes-level Key Performance Indicators (KPIs) for the ASEAN Economic Community (AEC) and the ASEAN Socio-Cultural Community (ASCC). These series of ACPMS infographics derive from the three ACPMS report series, complementing the existing broader regional integration liberatisation, connectivity and narrowing the development gap. The 2017 Report, the last of the ACPMS series of infographics, was released in April 2018.

**Connectivity**

**Fixed Broadband Subscriptions**

- In 2005, fixed broadband subscriptions were predominantly limited, with a total of 0.3 per 100 people in ASEAN. However, there has been a significant increase in the number of fixed broadband subscriptions over the period from 2005 to 2016, reaching an average of 7.2 per 100 people in 2016, more than triple the average in 2005 which was 2.0 per 100 people.

**Tourist Arrivals**

- In 2005, the total number of visitor arrivals in ASEAN was 51.3 million persons. Over the same period, the share of Intra-ASEAN visitor arrivals in total arrivals slightly decreased from 45.3% to 40.3%, while the share of Extra-ASEAN visitor arrivals increased from 54.7% to 59.7%.

- In 2016, the total number of visitor arrivals in ASEAN more than doubled from 2005 to 2016, reaching 115.6 million persons. The share of Intra-ASEAN visitor arrivals in total arrivals further decreased to 39.7%, while the share of Extra-ASEAN visitor arrivals increased to 60.3%.
